

Release Note for Vigor2767 Series

Firmware Version:	5.4.0.1
Release Type:	Regular – Upgrade recommended when convenient, as it includes general improvements and optimizations
Applied Models:	Vigor2767, Vigor2767ax, Vigor2767ax-4G

Vigor2767, a dual-WAN DSL and Ethernet VPN router, is designed for customers who require high-speed and reliable connectivity. With its high throughput performance and secure broadband connectivity, Vigor2767 enables users to simultaneously enjoy bandwidth-intensive applications such as high-definition multimedia streaming, online music, video streaming, and file sharing.

New Features

- None.

Improvement

- Corrected: An issue where the Device Name configuration did not conform to the specification.

Known Issue

- None.

File and Modem Code

- "Vigor2767_v5.4.0.1.zip" provides modem code 5.16.19.0.

Note

- Please ensure that you use the ".rst" firmware file when recovering the router. Note that uploading the ".rst" file will reset the router to factory default settings.
For certain models, a separate ".rst" (reset) firmware file may not be provided. If the ".rst" version is not available, please manually rename the file extension of the ".all" or ".sfw" firmware file to ".rst" to create an equivalent RST firmware file.
Example:
Rename Vigorxxxx_1.2.3.4.sfw → Vigorxxxx_1.2.3.4.rst
Please ensure you back up your configuration before applying a ".rst" firmware, as all settings will be erased during the process.
