

Release Note for VigorAP 912C

Firmware Version:	1.4.9
Release Type:	Critical - Upgrade immediately
Applied Models:	VigorAP 912C

VigorAP 912C is a ceiling-mount Wi-Fi for business networks. It has a capacity of up to 256 concurrent active users, ideal for a high-density environment such as a BYOD workplace. The low-profile appearance and PoE power supply provide the flexibility in deployment.

New Features

- None.

Improvement

- Improved: Improve the web GUI security (CVE-2019-16645).
- Improved: Improve the stability with 5G channel bandwidth.
- Corrected: An issue that the Time and Date page was unable to display the correct settings of the device.
- Corrected: An issue that the TFTP server IP could not be pinged in the TFTP mode.

Known Issue

- None.
