Release Note for VigorSwitch G2282x

Firmware Version:	2.10.3
Loader Version:	3.5.3
Release Type:	Regular – Upgrade recommended when convenient, as it includes general improvements and optimizations
Applied Models:	VigorSwitch G2282x

VigorSwitch G2282x, 24 Gigabit Ports + 4 SFP (10G) Ports L2 Managed Switch, is a standard switch that meets both IEEE 802.3u/ab Fast Ethernet and Gigabit Ethernet specifications.

New Features

- None.

Improvement

- Improved: Improve the compatibility with APTEK DAC cables in Stacking mode.
- Corrected: An issue with syslog format preventing VigorACS from collecting logs correctly.
- Corrected: An issue that writing an empty port description profile in Central Management would not clear the existing settings on the switch.
- Corrected: An issue where the management IP might reset to default (192.168.1.224) after an upgrade if the hostname contained spaces.

Known Issue

- None.

Note

- STP (Spanning Tree Protocol) is enabled by default starting from firmware version 2.9.8, which may result in a slightly longer link-up time for ports.
